INTELLIGENT PREDICTIVE ACTIONABLE

sapience®

Accurate and unbiased company workplace data, so you can make more informed decisions on resource and capacity planning, skills trending, retention strategies and contingent workforce management.

THE POWER OF SAPIENCE

Sapience is a platform built for the modern enterprise. Whether you're the CEO, business unit leader running a mission-critical department, or oversee external labor, Sapience will give you the data and analytics you need to make informed, impactful decisions. Don't leave decision-making to chance, self-reported data or hallway anecdotes. Use Sapience to optimize your workplace.

IDEAL FOR

- Contingent Workforce Analytics
- Enterprise Workforce Analytics
- Workforce Cost Optimization
- Office Location Compliance
- AI Data Enrichment

Privacy-First

Our platform is SOC 2 compliant and e-Privacy-certified, ensuring compliance with GDPR privacy laws. Privacy is our default setting.

Full Integration

We are industry-recognized for our enterprise solutions and platform APIs to integrate and generate insights from multiple data sources

Valuable Insights

Our platform is designed to help you see into your business like never before, delivering unbiased and real-time insights.

Multi-Departmental

Sapience delivers value to human resources, people analytics, finance, procurement, vendor management, and more.

SAPIENCE PLATFORM

Our SaaS platform allows you to collect, analyze and view unique and actionable insights into both the direct and external labor workforce. The Sapience platform includes a powerful BI engine offering predefined best-practice reports and dynamic real-time report writing.

UNLOCK INSIGHTS, MAKE BETTER DECISIONS

TRANSFORMATIVE ENTERPRISE ROI

- Seamless data ingestion and integration from unlimited sources

- Modern BI and analytics enabling robust data exploration and interactive visualizations

- Insight into what's really happening across their enterprise

- Powerful operational and financial transformation potential inside a business' human capital spend

INDUSTRY-LEADING FEATURES

- Automatically captures, processes and visualizes data for generating workforce-related insights

- Deep insights into contingent and direct labor, helping companies optimize third-party investments and enhance productivity

- A library of enterprise solutions and platform APIs that integrate and generate insights from multiple data sources

COMMITMENT TO PRIVACY

- Activity Level masking that hides an individual's time spent in non-work-related apps or URLs

- Access to report creation and data interaction is limited to individuals who have requisite credentials

- Sapience does not capture keystrokes, screenshots, user credentials, or turn video on.

- Sapience can substitute first and last names with pseudonyms
